What are the benefits of joining the Vizsla Breed Organisation the Hungarian Vizsla Society?

What we Do for the Vizsla

The Hungarian Vizsla Society promotes and safeguards the Health Quality and Welfare of the Vizsla, by work which is done nationally to educate influence and persuade breeders to adopt minimum standards. The Code of Conduct requires them to health test their animals before Breeding, and abide by age restrictions and limits the numbers of litters in a lifetime of the bitch. We also set standards on the purchase transaction so that every aspect of commerce is transparent, and buyers can have confidence that it is a safer transaction than buying from Breeders who do not comply with those minimum standards. We have access to our own Health Panel of Veterinary Professionals who can give us meaningful guidance to any emerging health trends and help shape our response. Getting more Breeders to be compliant is what you achieve for the Vizsla through your membership subscription. That means that you are playing your part in reducing abuse of the Vizsla and actively reducing defects and disease.
